OUR LIFE AT

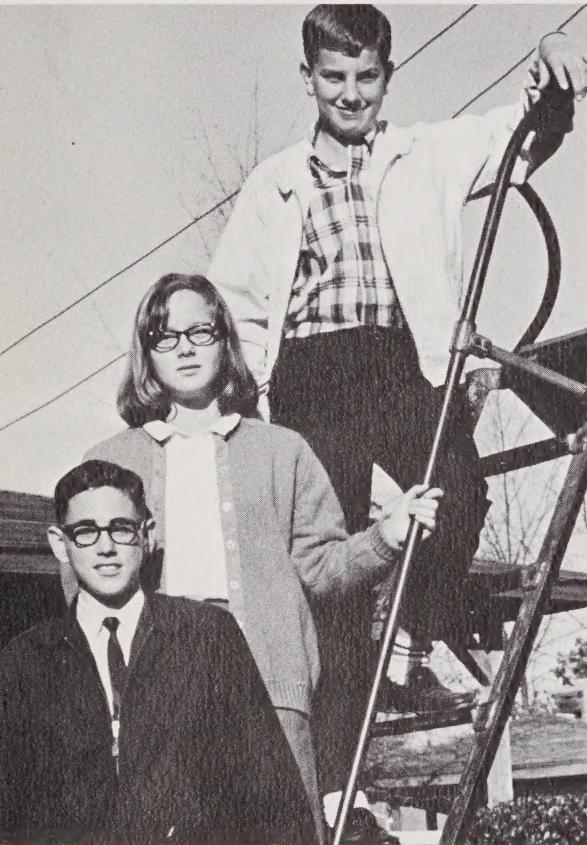

Past . . .

FUQUAY HIGH!

Future?

"Not merely to exist but to amount to something in life."

This, our motto, expressed our attitudes in high school as well as in life. We strived long and hard to be the leaders in our school.

We began our struggle being the "lowliest" creatures in high school—FRESHMEN. With new responsibilities, we happily fell into the swing of things . . . well, coming from the Willows new classmates, sharing lockers and forgetting combinations, $2xy^2 + xy + y = 0$, reading[?] Great Expectations, remembering our gym clothes, learning to be homemakers and farmers of the future and copying our Latin. But, don't forget a new principal and assistant, conduct grades and reasons [1-10, others] high school band and trips, chewing gum, "can't get enough of those sugar crisps," the "Cool Jerk," the BIG snow, hanging out at the tennis courts and our first Annual Day.

Not forgetting these events, we anxiously awaited our second year in high school as "sassy" SOPHOMORES. Our duties increased as we took on harder classes and more activities . . . collecting insects and dissecting those stinking frogs, we are homosapiens!, "Silas Marner," us thinkers?!, acquiring the history of the world, still learning to be homemakers and farmers of the future, copying Latin as experts, wearing pins to signify our membership in the FHA and FFA, leading the Latin Club with Bob Slaughter, Hardy Baker as vice president and Debra Schmelzer as treasurer and participating in varsity sports. Aside from all this we found time to sell doughnuts to sponsor our dance and waited on the Juniors and Seniors at the Prom. We greeted everyone with "Hello Bo" and drove [cautiously?] anywhere and everywhere but this only lasted for awhile.

Past . . .

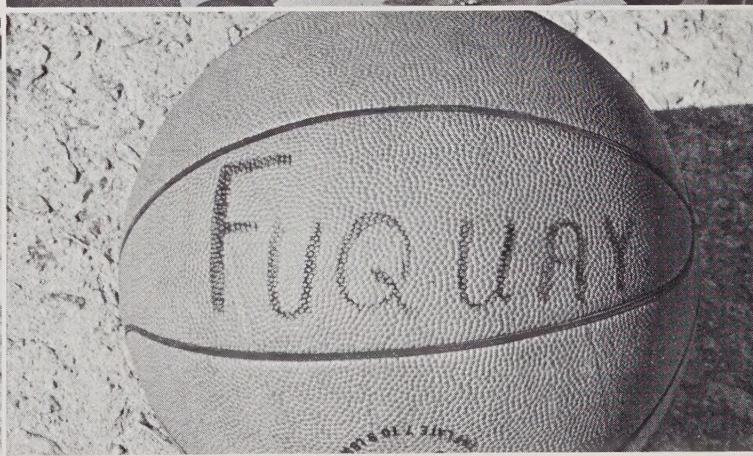

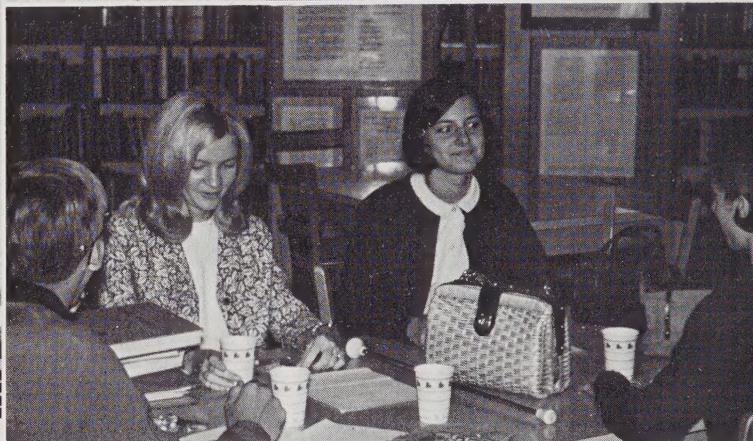

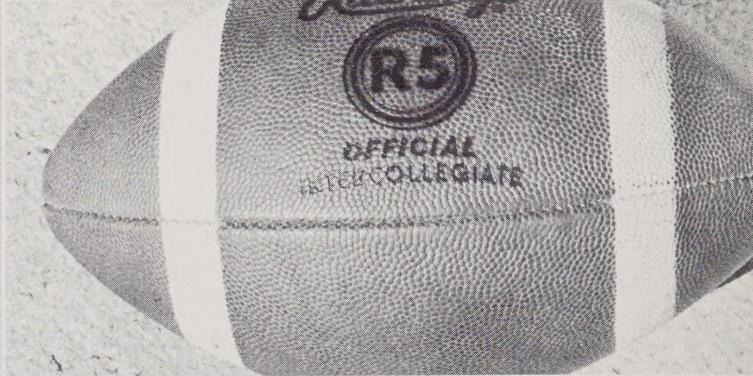

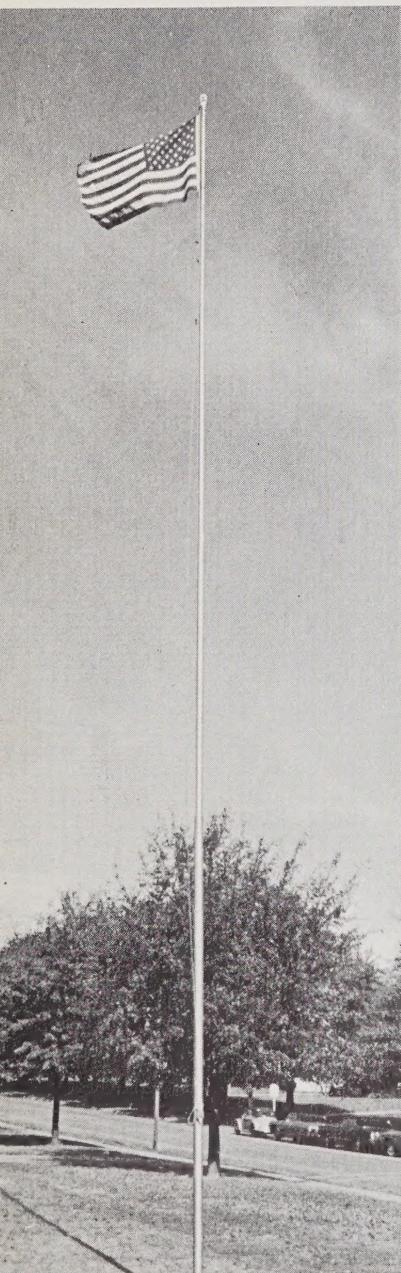

Our struggle continued as we entered our third year of high school as JUNIORS. Our crowded schedule included many memorable tasks and enjoyments. We were engaged in many tests including PSAT, SAT, NMST, and a Chemistry test. It was forced upon us to indulge in T. V. history, typing drills, geometry proofs, short stories, magazine sales, and more doughnut sales. We willingly caught the chemistry lab on fire, learned "Embrassez-moi," were inducted as fellow Betas, were at last Thinkers!, rode the "Green Goose" to and from football and basketball games, supported our track, golf, and baseball team, decorated the gym for "Paris by Night," raced to the beach, marshalled our scattering Senior friends, marched at Myrtle Beach, and attended Girls' and Boys' State. We were greeted frequently in the hall by "Tighten-up Hoss!", "That's a NO-NO," or Sammy Harold's "Heo Hee."

We entered our last year of high school as happy but sad SENIORS. Our studies included English IV and V with "WONDERFUL Canterbury Tales" and compositions galore, French verb charts, unbelievable typing problems, Gregg Shorthand, agriculture and home economics, sociology discussions, government trips, physic lab write-ups and problems, Advanced Biology, and drafting plates. Among our unforgettable moments were marching in last for assemblies, admiring our class rings, ordering our invitations, choosing our superlatives and mascots, crowning our Queen, selecting students of the month and dedicating our annual.

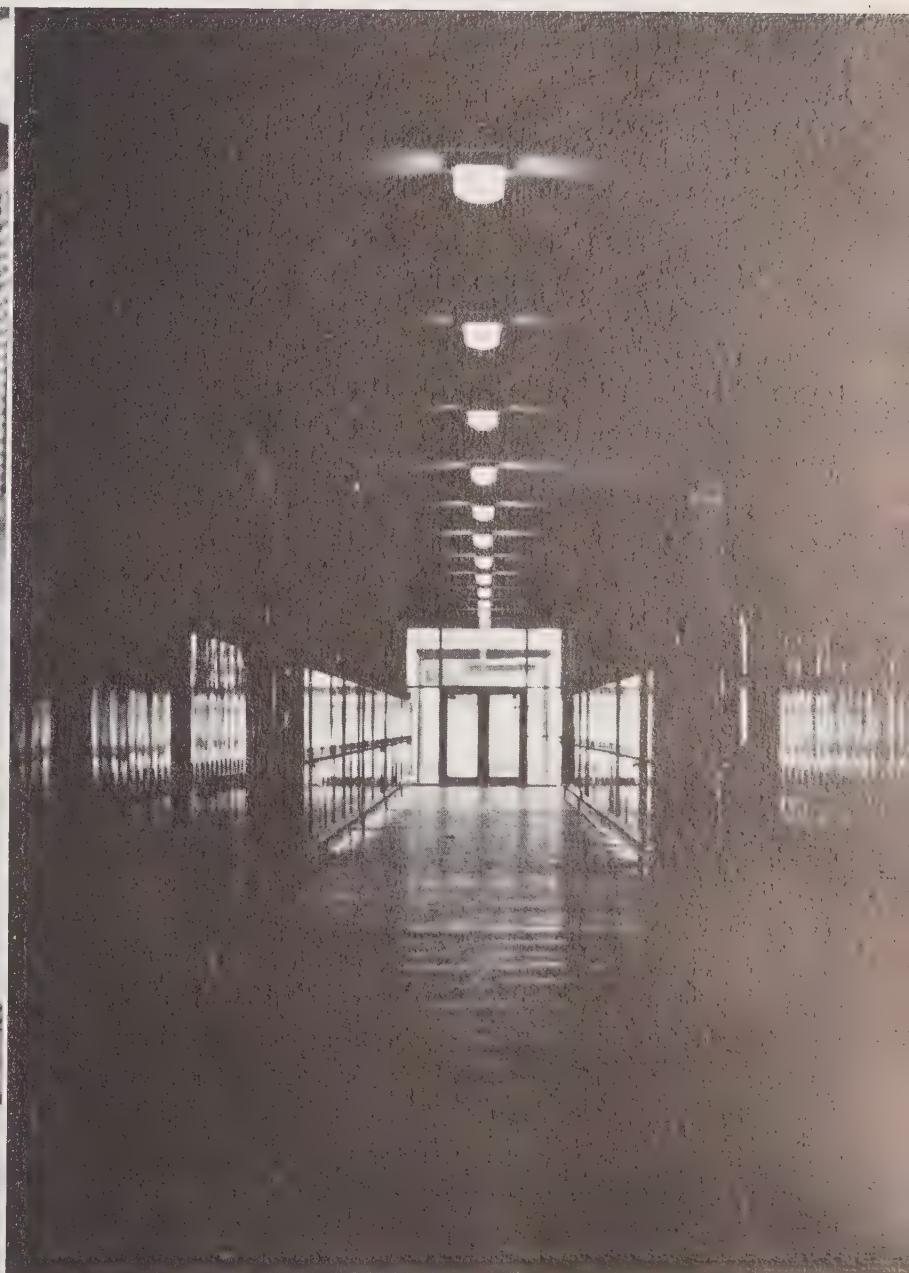

Having taken our place in high school as followers and then as leaders, we now go separately in the world to conquer any obstacles which may be before us. With gratitude, we say farewell to Fuquay High.

Our

Present . . .

ACROSS THE SANDS OF TIME

It is the evening of the year,
Fond memories will soon unfold.
I sit here now and shed a tear
As I think of days of old.

We entered into life a few short
years ago
And quickly came of age.
Time sped on with each new snow;
Each year turned a new page.

We too often faced worries and
trials.
Competition and pressure were great.
We gained in wisdom but lost our
smiles.
We learned to love and
learned to hate.

In spite of all the hardships,
though,
Life wasn't all that bad.
The parties, the friendships, the
jokes,
The dances; Oh, what fun we had!

Of course I don't have to name
them all,
Those events of time long past.
Just think of them at quiet times,
And make the fond memories last.

It's time for us now to bid fare-
well,
There are new mountains we have to
climb
But hold to those memories, for
we shall meet
Across the sands of time.

Tim Holland

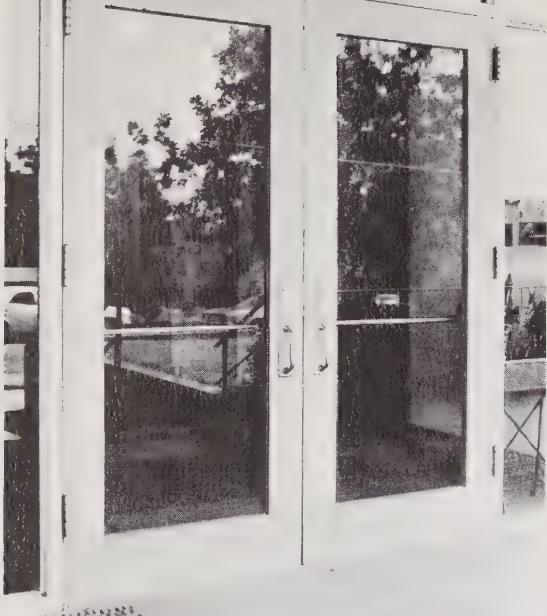

Dedication

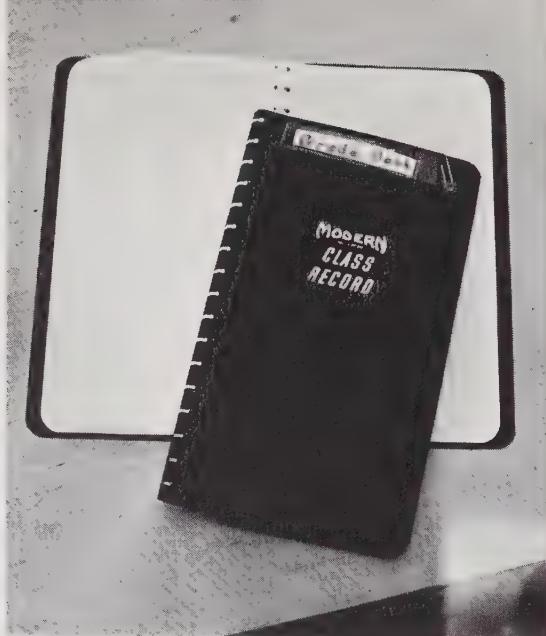

We the Class of 1969, in deep appreciation, dedicate this nineteen hundred and sixty-nine edition of the Greenbriar to Mrs. Joy Averett. She has taught us the importance of our English language and literature, plus giving us her time to lend a helping hand when we asked for her assistance. We would like very much to thank you, Mrs. Joy Averett, for being such a wonderful friend and teacher.

Mrs. Averett lends a helping hand to her students as she sponsors the Beta Clue.

ADMINISTRATION

It has often been stated that attitude is 85% of life, innate ability about 15%. If this is true, and there is an abundance of evidence that it is, our success or failure in life, and consequently our happiness, depends a great deal more on what we do with our talents and less on the amount of talent with which we are created.

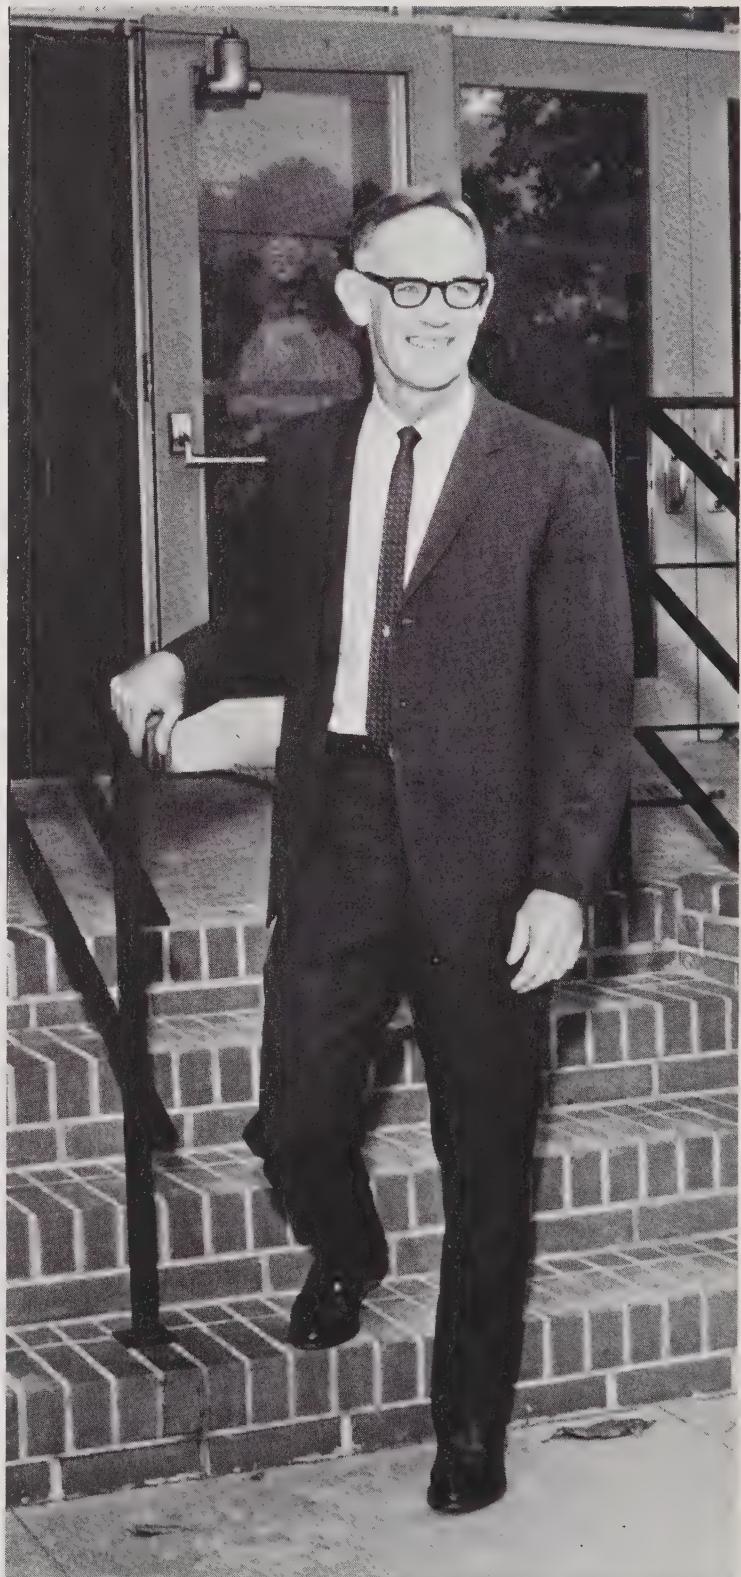

William James, American psychologist and philosopher once stated: "Compared to what we ought to be, we are only half awake. We are making use of physical and mental resources. Stating the thing broadly, the human individual thus lives far within his limits. He possesses power of various sorts which he habitually fails to use."

Those of you who are most successful in school are so largely because of your interest and desire, and the resultant diligence, dedication and fuller use of your potential. Those who fail, in most cases, do so because of lack of interest and desire, and the resultant lack of diligence, dedication and full use of potential. This will be equally true throughout your lives in whatever you undertake.

While here in school you are forming habits and developing character traits—either habits leading to success or habits leading to something less than success. It is our purpose in the Fuquay-Varina School to do all that we can to help you to make the most of your potential—to guide and influence you to make wise and effective use of your talents—but the final determination is up to you.

Clavin Colton, journalist, author, and politician, once stated: "Every person has two educations: One which he received from others; and one more important which he gives himself." Be sure that you make the most of the opportunities you have for both.

Best wishes to all for the greatest possible success in your endeavors both here at school and as you take your places in society after leaving school.
